ENVIRONMENT

It has been our commitment to promote growth without depleting Earth's resources. We theorize and adapt a concept of sustainable development that attempts to encompass the interests of the communities in which the plants operate, as well as the interests of customers and employees.

All environmental legislations and regulations are strictly adhered to and the best available techniques in the design and manufacture of products are adopted to prevent pollution. All steps are taken to conserve resources such as power, water, oil, gas etc and optimize their usage through scientific methods. A clean working environment has been provided to the employees, contractors and neighbors in the best possible manner.

SAFETY

We give paramount importance to safety. This is a commitment engraved in our strategy. It means we maintain and promote safe working conditions to protect employees, contractors and neighbors. Safe plants and qualified employees are the prerequisite for a safe production. A high degree of safety awareness and guidelines form the basis of the trust that the employees, contractors and the neighbors place in our Company.

RESEARCH & DEVELOPMENT

We try to seek tomorrow's problems, today. We strive for our success setting new standards in product performance. We are trying on new innovative products and new working methods. Our R&D is constantly trying to maintain the Company's competitive position.

FACTORY

QUALITY ASSURANCE

Jonarin ensures that all the products have clearly defined specifications guaranteed by careful and sophisticated quality control with compliance to the standard requirements. Our QC and R&D departments are equipped with highly modern and sophisticated facilities to attain precise results.

We at Jonarin feel that quality is the most important aspect without any substitute. In addition to that we are constantly monitoring our sales and customer care services to build closer relation with our customers.

We continuously upgrade our knowledge and skills to maximize the efficiency in bringing out quality products. By partnering with our customers, the needs are well studied and analyzed in upgrading our products.

Torro Toilet Cleaner, designed for strong cleaning, easily spreads the toilet bowl and makes it clean and sparkle. It kills all germs, removes stains and fights odor in a more efficient manner.

Black Cat Sanitary Fluid is a powerful liquid with a pleasant fragrance and strong cleaning agents. It is ideal for cleaning bathrooms, garbage areas, sick rooms, poultry and cattle sheds, abattoirs, drainages etc and will keep away flies and gets rid of bad odors and stains.

The only cleaning powder made from sodium and potassium by continuous sulphation of linear alkyl benzene with sulphur trioxide air mixture. It is free from acid content and manufactured in the most modern continuous sulphation plant. It is ideal for dishes, glass and ceramic floors.

The plant produces the best quality bleaching powder under strict quality control on raw materials, process and product. It can be used to disinfect, clean and remove the stains on toilets, tiles, etc and is very much valued as it can remove bacteria, algae and other contamination in large areas.

Olivia
Room Freshener
Water Based

The legacy of Olivia goes back 30 years. It created a different segment altogether giving a natural fragrance which lasts for a longer period. New water based formulations which are eco-friendly are available in a range of fragrances – Lavender, Brute, Sandalwood, Rose, Musk etc.

ROYAL THERM
Gel Fuel

JONARIN
The Chemical People

It is used mostly by the Star Hotels, Restaurants, Caterers, Function Halls etc for warming the food and chafing the dishes. It is also used as an emergency fuel at homes and during camps.

VETO[®]
LIQUID SOAP

Veto is a liquid detergent of the anionic type consisting of long hydrocarbon chains and a water-soluble ionic group which is negatively charged.

Due to its particular nature, it is ideally used in the hospitality industry for the removal of soiling matter, grease, oils, stains and very successfully used for degreasing and cleaning of crockery, cutlery, glasses, silverware, refrigerators, mixers, blenders, oven, sinks, utensils, linen, etc.

It is also in much demand in Hospitals, Factories, Sea Food Industries, Dairy Farms, Dry Cleaning Industry etc, where a high standard of cleanliness is essential and maintained. It also gives a sparkling look and is very gentle on your hands, leaving no scratches or stains.

Olivia
Liquid Cleaner
Day long fragrance

Olivia, the multi-purpose liquid cleaner remains the predominant form of liquid cleaner for most Hotels, Hospitals, Factories, Sea Food & Food Industries, Institutions, Resorts, Homes etc. It is easy to use, versatile, environmentally acceptable and safe.

The anaerobic decomposition of organic matter by bacteria and fungi is kept at bay to a large extent and the natural fragrances of lime, jasmine, brute, sandal, tang, lemon grass etc gives a refreshing experience to each and every one. Olivia liquid cleaner is neutral in form and very gentle on your hands. It also keeps mosquitoes and flies away.

JONARIN
